3rd SATA ANNUAL MEETING

After the International Anesthesia Research Society (IARS) Annual Meeting

May 21st, 2019
Montreal, Quebec, Canada

OVERVIEW

This half day conference offers a comprehensive review of perioperative care of various solid organ transplantation procedures using didactic lectures, posters and case presentations.

OBJECTIVES

Discuss the value of living donor program, fast track/ERAS, intraoperative renal replacement therapy and standardization of liver transplant anesthesia. Understanding the role of right ventricle, combined transplants and ECMO in cardiothoracic transplant.

TARGET AUDIENCE

The target audience for this meeting consists of Anesthesiologists, Transplant surgeons, Critical Care Physicians, Residents and Fellows taking care of abdominal and cardiothoracic transplant patients.

REGISTRATION

Registration fees

Physicians	\$200
SATA Member/Associate	FREE

Registration fee includes

Continuing Education Credit
Registration and course materials available on line @ SATA website:
<http://transplantanesthesia.org>

Registration Information

Registration @ [IARS website](http://www.iars.org)

Continuing Education Credit

TBA

Faculty Disclosure

All individuals in a position to control the content of this education activity are required to disclose all relevant financial relationship with any entity producing, marketing, re-selling or distributing health care goods of services used on, or consumed by patients.

SCIENTIFIC PROGRAM

8:00 AM Registration

8:30 –8:45: Welcome and introduction of SATA

*Mandell S. MD PhD, University of Colorado
Pretto E. MD, University of Miami*

Session 1

Everything is going to be faster and better

Moderator: McCluskey S. MD, Toronto General Hospital

8:45-09:05: Living donor management: The Korean experience

Korean Society of Anesthesiology TBA

09:05-09:25: Implementing ERAS and Fast Track in a Liver Transplant Program: A Road Map

Aniskevich S. MD, Mayo Clinic, Jacksonville

09:25-9:45: Standardizing liver transplant anesthesia: Quality indicators and education

Adelmann D.MD, UCSF

Session 2

Pro/Con debate: I need CRRT in the operating room

Moderator: Nicolau-Raducu R., MD PhD, University of Miami

9:30-9:45: Pro: Schlichting N. MD, Mount Sinai, New York

9:45-10:00: Con: Hannon V. MD, UCSF

Session 3

Case and Problem Based Learning discussion

Moderator: TBA

10:00–10:20: Abdominal Transplantation

Crouch C. MD, University of Colorado

10:20–10:45: Break and Poster session

Session 4

Thoracic Organs

Moderator: Miltiades A MD, Columbia University New York

10:45-11:05: Echocardiographic Evaluation of Right Ventricular Function in the Organ Transplant Recipient

TBA

11:05-11:25: Combined Abdominal and Thoracic Transplants

Wilkey B. MD and Abrams B. MD, University of Colorado

11:25-11:45: ECMO in Heart Failure and End Stage Lung Disease

Yoshihisa Morita MD, Henry Ford Hospital

Session 5

What's New in Transplant Anesthesiology

12:00–12:15: Review of Literature and Ongoing Scientific Projects

Geraldine Diaz MD, New York

12:15 –12:30: Closing remarks

Wagener G., Columbia University New York

12:30-13:30: Board meeting
