Prepare

Review Your Poster Assignments

Please review the posters within your assigned group(s) and contact your group members by **Thursday, April 18, 2019**.

Poster Session Organization

Poster sessions are organized by meeting then divided into groups based on subspecialty topic. Each group will have a poster moderator and 4-7 poster presenters.

Poster sessions include an open poster viewing time and a moderated poster discussion session. Posters will remain on display throughout the **open poster viewing** time frame. The poster moderator will facilitate discussion between the poster presenters and attendees during the **moderated poster discussion session**.

Moderated Discussion Session Format

- **Introduction**
Please take a few minutes to introduce yourself to the poster presenters in your assigned moderated poster discussion session.
- **Poster Presentations**
Poster presentations will proceed in numerical order. For example, if your group contains poster #'s 1-6, the poster presenter assigned to poster #1 will present first, then poster #2, and so forth.

Each poster presenter will discuss their research for **10-15 minutes**, with **5 min for Q&A**. The moderator and poster presenters will cluster around the poster as it is being presented. Meeting attendees are welcome to join the discussion sessions.

- **Questions and Discussion**
Moderators are expected to lead the discussion sessions, asking thought-provoking questions.
